

# GRAVITY

BUT HERE'S WHAT EVERYBODY REALLY OUGHT TO KNOW,  
OUT THERE IN SPACE, GRAVITY'S FORCE IS QUITE LOW.  
THAT'S WHY ASTRONAUTS CAN FLOAT INSIDE THEIR SPACECRAFT.  
THAT'S WHY THEY EAT FROM A BAG, TO KEEP THEIR FOOD FROM ESCAPING.  
WASHING THEIR HAIR IS QUITE A HARD THING TO DO,  
THINGS ARE DIFFERENT OUT THERE, MORE THAN WE EVER KNEW.

YES IN SPACE EVERYONE HOVERS AND DRIFTS,  
JUST AS THE BIRDS DO HERE - ONE OF GOD'S GIVEN GIFTS.  
THEY ROLL IN THE AIR, IT'S QUITE FUN TO DO.

WHAT GOES UP, MUST COME DOWN.  
NO MATTER IF IT'S HEAVY OR PERHAPS LIGHT AS A FEATHER.  
YEARS AGO THIS WAS KIND OF A RIDDLE, IT HAD US IN AWE,  
BUT THEN WE REALIZED GRAVITY WAS THE CAUSE OF IT ALL.

GRAVITY AFFECTS EVERYTHING, GREAT AND SMALL.  
IT AFFECTS TRUCKS BOOKS AND BUILDINGS BIG AND TALL.  
IT'S THE REASON WHY THINGS AROUND US DON'T FLOAT ABOVE GROUND.  
WHY THEY LIE ON THE SHELF.  
THEY'RE ACTUALLY BEING PULLED DOWN - YOU CAN TRY IT YOURSELF.

IF WE PICK UP A BALL AND DROP IT DOWN, TO THE GROUND,  
IT'LL FALL REAL FAST EVEN IF WE DON'T HELP IT GO DOWN.  
GRAVITY KEEPS US STUCK TO THE GROUND,  
WITHOUT IT WE'D ALL BE FLOATING, FLYING AROUND.

THAT'S HOW IT IS WHEN GRAVITY HAS ON PULL ON YOU.
